### “Tour” vs “Visit”

**Tours** are undertaken often by local tour guides with intimate knowledge of an area, its culture, and history. They are licensed, qualified experts who provide specific information on history, art, architecture and culture of the city/village/attraction. They meet the group at the required place and leave the group at the end of the tour.

**Visits** on the other hand are done by the tour leader who provides general guidance around a city or village, but are not required to have specific knowledge on art, architecture, or history. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there.
